DAY 2, 27 September
Hearing in the European Parliament

“Independent Living in Europe – Are we going from bad to worse?”

15:00 – 17:00, European Parliament, Room PHS 5B1
Hosted by MEPs Marisa Matias (GUE/NGL) and José Gusmão (GUE/NGL)

Description of the event:

This hearing will take place during the second day of the Freedom Drive, immediately after the protest. It will bring together Freedom Drivers – disabled people and allies – from across Europe, with Members of the European Parliament. The hearing will provide an opportunity for our political representatives to hear directly from disabled people about their lives and the barriers they continue to face to live independently in the community. The discussion takes place in the context of the combined second and third reviews of the European Union’s performance as a party to the UN Convention on the Rights of Persons with Disabilities, and at the early stages of the implementation of the European Disability Rights Strategy 2021 – 2030. It follows the COVID-19 pandemic and the devastating war in Ukraine. We will use it to draw attention to the most burning issues faced by members of the European Network on Independent Living today.

About the European Network on Independent Living

The European Network on Independent Living (ENIL) is a Europe-wide network of people with disabilities. It represents a forum intended for all disabled people, Independent Living organisations and their non-disabled allies on the issues of independent living. ENIL's mission is to advocate and lobby for Independent Living values, principles and practices, namely for a barrier-free environment, deinstitutionalisation, provision of personal assistance support and adequate technical aids, together making full citizenship of disabled people possible.

ENIL has participatory status with the Council of Europe (i.e. is a member of the Conference of INGOs) and consultative status with ECOSOC.
