

# Public consultation: Enhancing the Strategy for the rights of persons with disabilities up to 2030

## Introduction

---

The Strategy for the Rights of Persons with Disabilities 2021-2030 (the Strategy) is the EU's main policy document on disability. It describes a set of objectives and actions for the implementation of EU disability policy. The Strategy aims to improve the lives of persons with disabilities across the EU and beyond. It contributes to building a Union of Equality and supports the European Pillar of Social Rights. It is the tool for the implementation at EU level of the United Nations' Convention on the Rights of Persons with Disabilities (UNCRPD).

The UNCRPD is the first international, legally binding instrument setting minimum standards for the rights of persons with disabilities, and the first human rights convention to which the EU has become a party. For the EU, the convention entered into force on 22 January 2011. All EU countries have signed and ratified it. This means that every EU country must protect the rights of persons with disabilities.

The [mission letter](#) to the Commissioner for Equality indicates as a priority the full implementation of the Strategy. Against this background, the Commission intends to present new time-bound actions for the Strategy's remaining years, and to renew its commitment to advancing disability rights and finetuning its action in this area, bearing in mind the changing policy context and emerging societal challenges.

As announced in the [Commission Work Programme 2026](#), the Strategy will be updated with the Communication "Enhancing the strategy for the rights of persons with disabilities up to 2030" planned for the second quarter 2026.

While the objectives of the Strategy remain valid, barriers faced by persons with disabilities highlighted in the Strategy persist and make all the more pressing the need for renewed action to support the rights, autonomy and participation in society of persons with disabilities on equal footing with others.

The purpose of this public consultation is to collect evidence and views from the broadest possible range of stakeholders to prepare the next steps in the implementation of the Strategy and to ensure it has EU added value.

You do not need any previous knowledge of the Strategy to respond to this consultation.

# Standard version, easy-to-read and accessible Word document

---

The survey has been drafted so that it can be understood by the broadest possible range of stakeholders. However, so that persons with intellectual disabilities can also respond to the survey, an easy-to-read version is available. An accessible Word document is also available for people who have accessibility issues when responding to the survey online.

The questionnaire below is the standard version.

The easy-to-read version online is available in a [different EU Survey link](#).

The accessible Word document with the standard or the easy-to-read version are available in the 'Background documents' section of this page, or in the [Have Your Say page](#). Once you have finished responding to it, please send it to [JUST-DISABILITY-STRATEGY@ec.europa.eu](mailto:JUST-DISABILITY-STRATEGY@ec.europa.eu)  
Please respond using only one format. Where possible, we encourage you to respond to the questionnaire online to facilitate the later analysis of the replies.

If you reply to the survey online, please avoid sending your reply as well via email for confirmation.

## **Impact of the Strategy for the Rights of Persons with Disabilities 2021-2030**

---

The Strategy for the Rights of Persons with Disabilities 2021-2030 sets out objectives and actions to improve the situation for persons with disabilities. To better achieve its objectives, the Strategy identifies the following eight areas of action.

- **Accessibility:** ensuring that products, services and the built environment are more accessible to persons with disabilities.

- **Enjoying EU rights:** moving and residing freely and participating in the democratic process.
- **Decent quality of life and living independently:** developing independent living and improving community-based services; supporting employment and skills development; consolidating social protection systems.
- **Equal access and non-discrimination:** fighting discrimination based on disability; improving access to justice, social protection and healthcare, inclusive education, goods and services including housing, culture, safety and protection.
- **External action:** promoting the rights of people with disabilities outside the EU too.
- **Efficiently delivering the Strategy:** ensuring UNCRPD compliance in policymaking, cooperation with EU countries, regional and local authorities, and supporting implementation through EU funding.
- **Leading by example:** making disability-inclusive employment in the EU a reality and ensuring buildings and communications are accessible.
- **Awareness, governance and measuring progress:** Strengthening the EU framework under the UNCRPD and ensuring sound monitoring of and reporting on disability rights at EU level.
